The Environmental Assessment Act, 1975

MGS-35

Exemption Section 30

Having received a request from the Minister of Government Services that an undertaking, namely:

The Construction program associated with the development of the Maintenance Building at Old Fort William in Thunder Bay at Pointe De Meuron;

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

1. The Crown will be interfered with and damaged by the undue expense required to pre-

pare an Environmental Assessment for an undertaking that will have no significant adverse effect on the environment, and that is needed by the Ministry of Culture and Recreation to replace existing inadequate maintenance facilities as part of the program to develop Old Fort William; and

2. The public will be interfered with because the quality of the recreational experiences available at Old Fort William is diminished by the inadequacies of the existing maintenance facilities servicing the Fort.

Having weighed such damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation, and wise management in Ontario of the Environment, which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The proposed undertaking would be replacing existing maintenance, workshop and storage facilities which are inadequate for present or future program requirements;
2. The Minister of Government Services has assured me that adequate services exist at the Fort site to permit the proposed development, and zoning would permit the project to be constructed;
3. All development at the site of the Fort will be subject to the concurrence of the Lakehead Region Conservation Authority; and
4. The proposed undertaking will not have any significant adverse effects on the environment.

This exemption order is subject to the following terms and conditions:

1. That tenders for construction be awarded no later than December 31, 1983; and
2. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment, between 30 and 100 days prior to the calling of tenders for the undertaking, advising that the Ministry of Government Services has reviewed the undertaking and is of the opinion that the current situation under which the undertaking is proposed is unchanged from the situation that existed on the date that this exemption order was issued.

This order comes into force and has effect on and after the date upon which it is approved by the Lieutenant Governor in Council.

Dated the 5th day of December, 1979.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Government Services that an undertaking, namely:

The construction of the Moosonee Consolidated Building, Phase II, on a site consisting of Lots 323, 324, 325, 335, 336 and 337 between Revillion and Ferguson Roads and Third and Fourth Streets, Townsite of Moosonee in the District of Cochrane;

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

1. The Crown will be interfered with by the undue expense required to prepare an environmental assessment for an undertaking that will have no significant adverse effect on the environment;
2. Several of the client Ministries of the Ministry of Government Services will be interfered with because they require the undertaking so that they can consolidate their existing inadequate and makeshift accommodations into single offices possessing the facilities to allow them to operate in an efficient and effective manner; and
3. The public will be interfered with and damaged because the level of service available from the Provincial Government, the efficiency with which it is effected and the access to that service is diminished by the inadequacies of the existing accommodations.

Having weighed such damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the Environment, which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons;

1. The proposed undertaking is the second phase of a program to consolidate office facilities in Moosonee. The first phase was exempted from the Act by virtue of Exemption Order MGS-28. The proposed building replaces the existing office facilities which are overcrowded and are causing difficulties to the public seeking access to the Government.

The Government was forced to utilize these inadequate facilities when the original consolidated Government building burned down. The Minister of Government Services has informed me that suitable alternative private accommodation within the area is not available because a commercial market for such accommodation does not exist;

2. The Minister of Government Services has assured me that the proposed undertaking is in accordance with the existing zoning of the site and that the municipal services which exist at the edge of the site are sufficient to secure development of the project;
3. The manner in which the tender documents treat the aspect of employment of local labour resources will reflect the position that the local residents benefit to the maximum degree possible from construction related activities; and
4. The proposed undertaking will have no significant adverse effect on the environment.

This exemption order is subject to the following terms and conditions:

1. That tenders for construction of the facility be let no later than December 31, 1983;
2. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment, between 30 and 100 days prior to the calling of tenders for the undertaking, advising that the Ministry of Government Services has reviewed the undertaking and is of the opinion that the current situation under which the undertaking is proposed is unchanged from the situation that existed on the date that this exemption order was issued; and
3. That the Ministry of Government Services submit a copy of the tender documents for the undertaking to the Environmental Approvals Branch, Ministry of the Environment, for inclusion in the Public Record.

This order comes into force and has effect on and after the date upon which it is approved by the Lieutenant Governor in Council.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Government Services that an undertaking, namely:

The construction of a new Registry Office in Welland on a .43 ha (1.07 acre) site located in the area bounded by Division Street, East Main Street, Burger Street and King Street,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

1. The Crown will be damaged and interfered with by the undue expense required to prepare an environmental assessment for an under-

taking that will have no significant adverse effect on the environment, and that is needed by the Ministry of Consumer and Commercial Relations to replace the existing inadequate Registry Office; and

2. The public will be interfered with because the level of service available from the Ministry of Consumer and Commercial Relations, the efficiency with which it is effected and the access to that service is impaired by the inadequacies of the existing accommodation.

Having weighed such damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the Environment, which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The proposed undertaking will replace the existing Registry Offices located at the Welland Court House, which are inadequate for current or future program requirements;
2. The Minister of Government Services has assured me that the zoning at the proposed site is compatible with the proposed undertaking. The project is consistent with civic attempts to revitalize the downtown core area of Welland. In addition, the Minister has informed me that adequate municipal services exist at the site to permit the proposed development;
3. The proposed undertaking will have no significant adverse effect on the environment.

This exemption order is subject to the following terms and conditions:

1. That tenders for construction of the facility be let no later than December 31, 1983; and
2. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment, between 30 and 100 days prior to the calling of tenders for the undertaking, advising that the Ministry of Government Services has reviewed the undertaking and is of the opinion that the current situation under which the undertaking is proposed is unchanged from the situation that existed on the date that this exemption order was issued.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Government Services that an undertaking, namely:

The activity of constructing an Ontario Government Building in Oshawa, on a property of about .69 ha (1.72 acres) which is the western portion of the block bounded by King Centre, Athol and Simcoe Streets;

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the person indicated will occur:

1. The Crown will be damaged and interfered with by the costs of preparing an Environmental Assessment for an undertaking that is required by the Ministry of Government Services for the implementation of the Government's policy on relocating its activities to develop regional economic diversity.

Having weighed such damage and interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the Environment, which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking is consistent with government policy on the relocation of labour intensive activities and programs to develop regional economic diversity;
2. The site at which the proposed facility will be developed is in the core area of the City of Oshawa, the development of which is being promoted for commercial and institutional purposes. The undertaking will complement the plans associated with the area's revitalization; and
3. I am advised by the Ministry of Government Services that the City of Oshawa has confirmed that the municipal services are adequate to service the proposed facilities and the proposed use of the land is consistent with the zoning by-laws affecting the site.

This exemption order is subject to the following terms and conditions:

1. That tenders for construction be awarded no later than December 31, 1981; and
2. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment, between 30 and 100 days prior to the calling of tenders for the undertaking, advising that the Ministry of Government Services has reviewed the undertaking and is of the opinion that the

current situation under which the undertaking is proposed are unchanged from the situation that existed on the date that this exemption order was issued.

Having weighed such damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the Environment, which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

Tetracycline Inj Pd 250mg Pk	014729	Achromycin	LED	1.6416
	024511	Tetracyn	PFI	1.9800

Note
The use of tetracyclines during tooth development (last half of pregnancy, infancy and childhood to the age of 8 years) may cause permanent tooth discoloration (yellow-gray-brown). This reaction is more common during long-term use of the tetracyclines, but has been observed following short-term courses. Enamel hypoplasia has also been reported. Tetracyclines should therefore not be used in this age group unless other antibiotics are not likely to be effective or are contraindicated.

Hypertension: Fixed Combination Drugs
A fixed combination drug is not indicated for initial therapy of hypertension. Hypertension requires therapy titrated to the individual patient. Recognizing this, if the fixed combination drug meets that titrated dose of its individual components, its use may be more convenient in the management of the individual patient. The treatment of hypertension is not static, it must be re-evaluated as conditions in each patient warrant. Adapted from F-D-C reports, Sept. 11, 1972, p.8 (FDA Cardiovascular Advisory Committee).

Hypertension: Fixed Combination Drugs

A fixed combination drug is not indicated for initial therapy of hypertension. Hypertension requires therapy titrated to the individual patient. Recognizing this, if the fixed combination drug meets that titrated dose of its individual components, its use may be more convenient in the management of the individual patient. The treatment of hypertension is not static, it must be re-evaluated as conditions in each patient warrant. Adapted from F-D-C reports, Sept. 11, 1972, p.8 (FDA Cardiovascular Advisory Committee).

Schedule 1

1. *Liability of Carrier*

The carrier of the goods herein described is liable for any loss of or damage to goods accepted by him or his agent except as hereinafter provided.

2. *Liability of Originating and Delivering Carriers*

Where a shipment is accepted for carriage by more than one carrier, the carrier issuing the bill of lading (hereinafter called the originating carrier) and the carrier who assumes responsibility for delivery to the consignee, (hereinafter called the delivering carrier), in addition to any other liability hereunder, are liable for any loss of or damage to the goods while they are in the custody of any other carrier to whom the goods are or have been delivered and from which liability the other carrier is not relieved.

3. *Recovery from Connecting Carrier*

The originating carrier or the delivering carrier, as the case may be, is entitled to recover from any other carrier to whom the goods are or have been delivered the amount of the loss or damage that the originating carrier or delivering carrier, as the case may be, may be required to pay hereunder resulting from loss of or damage to the goods while they were in the custody of such other carrier.

When shipments are interlined between carriers, settlement of concealed damage claims shall be prorated on the basis of revenues received.

4. *Remedy by Consignor or Consignee*

Nothing in article 2 or 3 deprives a consignor or consignee of any rights he may have against any carrier.

5. *Exceptions from Liability*

The carrier shall not be liable for loss, damage or delay to any of the goods described in the bill of lading caused by an Act of God, the Queen's or public enemies, riots, strikes, a defect or inherent vice in the goods, the act or default of the consignor, owner or consignee, authority of law, quarantine or difference in weights of grain, seed, or other commodities caused by natural shrinkage.

6. *Delay*

No carrier is bound to transport the goods by any particular vehicle or in time for any particular market or otherwise than with due dispatch, unless by agreement specifically endorsed on the bill of lading and signed by the parties thereto.

7. *Routing by Carrier*

In case of physical necessity where the carrier forwards the goods by a conveyance that is not a licensed for-hire vehicle, the liability of the carrier is the same as though the entire carriage were by licensed for-hire vehicle.

8. *Stoppage In Transit*

Where goods are stopped and held in transit at the request of the party entitled to so request, the goods are held at the risk of that party.

9. *Valuation*

Subject to article 10, the amount of any loss or damage for which the carrier is liable, whether or not the loss or damage results from negligence, shall be computed on the basis of,

- (a) the value of the goods at the place and time of shipment including the freight and other charges if paid; or
- (b) where a value lower than that referred to in paragraph *a* has been represented in writing by the consignor or has been agreed upon, such lower value shall be the maximum liability.

10. *Maximum Liability*

The amount of any loss or damage computed under paragraph *a* or *b* of article 9, shall not exceed \$4.41 per kilogram computed on the total weight of the shipment unless a higher value is declared on the face of the bill of lading by the consignor.

11. *Consignor's Risk*

Where it is agreed that the goods are carried at the risk of the consignor of the goods, such agreement covers only such risks as are necessarily incidental to transportation and the agreement shall not relieve the carrier from liability for any loss or damage or delay which may result from any negligent act or omission of the carrier, his agents or employees and the burden of proving absence from negligence shall be on the carrier.

12. *Notice of Claim*

- (a) No carrier is liable for loss, damage or delay to any goods carried under the bill of lading unless notice thereof setting out particulars of the origin, destination and date of shipment of the goods and the estimated amount claimed in respect of such loss, damage or delay is given in writing to the originating carrier or the delivering carrier within sixty (60) days after delivery of the goods, or, in the case of failure to make delivery, within nine (9) months from the date of shipment.
- (b) The final statement of the claim must be filed within nine (9) months from the date of shipment together with a copy of the paid freight bill.

14. *Freight Charges*

- (a) If required by the carrier the freight and all other lawful charges accruing on the goods shall be paid before delivery and if upon inspection it is ascertained that the goods shipped are not those described in the bill of lading, the freight charges must be paid upon the goods actually shipped with any additional charges lawfully payable thereon.
- (b) Should a consignor fail to indicate that a shipment is to move prepaid, or fail to indicate how the shipment is to move, it will automatically move on a collect basis.

15. *Dangerous Goods*

Every person, whether as principal or agent, shipping explosives or dangerous goods without previous full disclosure to the carrier as required by law, shall indemnify the carrier against all loss, damage or delay caused thereby, and such goods may be warehoused at the consignor's risk and expense.

16. *Undelivered Goods*

- (a) Where, through no fault of the carrier, the goods cannot be delivered, the carrier shall immediately give notice to the consignor and consignee that delivery has not been made, and shall request disposal instructions.
- (b) Pending receipt of such disposal instructions,
 - (i) the goods may be stored in the warehouse of the carrier, subject to a reasonable charge for storage, or
 - (ii) provided that the carrier has notified the consignor of his intention, the goods may be removed to and stored in a public or licensed warehouse at the expense of the consignor, without liability on the part of the carrier, and subject to a lien for all freight and other lawful charges, including a reasonable charge for storage.

17. *Return of Goods*

Where a notice has been given by the carrier pursuant to paragraph *a* of article 16, and no disposal instructions have been received within ten (10) days from the date of such notice, the carrier may return to the consignor, at the consignor's expense, all undelivered shipments for which such notice has been given.

18. *Alterations*

Subject to article 19, any limitation on the carrier's liability on the bill of lading, and any alteration, or addition or erasure in the bill of lading shall be signed or initialled by the consignor or his agent

and the originating carrier or his agent and unless so acknowledged shall be without effect.

19. *Weights*

It shall be the responsibility of the consignor to show correct shipping weights of the shipment on the bill of lading. Where the actual weight of the shipment does not agree with the weight shown on the bill of lading, the weight shown thereon is subject to correction by the carrier.

20. *C.O.D. Shipments*

- (a) A carrier shall not deliver a C.O.D. shipment unless payment is received in full.
- (b) The charge for collecting and remitting the amount of C.O.D. bills for C.O.D. shipments must be collected from the consignee unless the consignor has otherwise so indicated and instructed on the bill of lading.

3. *Recovery from Connecting Carrier*

The carrier issuing the bill of lading is entitled to recover from any other carrier to whom the goods are delivered in the course of their conveyance to their final destination the amount of the loss, damage or injury that the carrier issuing the bill of

lading may be required to pay hereunder caused by or resulting from the handling of the goods by the other carrier, if the carrier issuing the bill of lading is not relieved therefrom by the terms of the bill of lading, and if the loss, damage or injury was not caused by the act, neglect or default of the carrier issuing the bill of lading, subject to the onus set out in article 2.

4. *Remedy by Holder of Bill of Lading*

Nothing in article 2 or 3 deprives the holder of the bill of lading or the party entitled to the goods of any remedy or right of action that he may have against the carrier issuing the bill of lading or against any other carrier.

5. *Exceptions from Liability*

The carrier is not liable for loss, damage or delay to any of the goods described in the bill of lading caused by an Act of God, the Queen's or public enemies, riots, strikes, defect or inherent vice in the goods, the act or default of the shipper or owner, the authority of law, quarantine or differences in weights of grain, seed, livestock or other commodities caused by natural shrinkage.

6. *Stoppage in Transit*

Where goods are stopped and held in transit at the request of the party entitled to request it, the goods are held at the risk of the owner.

7. *Delay*

No carrier is bound to transport the goods by any particular public commercial vehicle or in time for any particular market or otherwise than with due dispatch, unless by agreement specifically endorsed on the bill of lading and signed by the parties thereto.

8. *Routing by Carrier*

In the case of physical necessity, the carrier has the right to forward the goods by any conveyance or by any route between the point of shipment and the point of destination but, if the goods are forwarded by a conveyance that is not a public commercial vehicle, the liability of the carrier is the same as though the entire carriage were by public commercial vehicle.

9. *Valuation*

Subject to article 10, the amount of any loss, damage or injury for which the carrier is liable, whether or not the loss, damage or injury results from negligence, shall be computed on the basis of,

- (a) the value of the goods at the place and time of shipment including the freight and other charges if paid; or

- (b) where a value lower than that referred to in paragraph *a* has been represented in writing by the consignor or has been agreed upon, such lower value.

10. *Maximum Liability*

Subject to article 11, the amount of any loss or damage computed under paragraph *a* or *b* of article 9 shall not exceed \$3.31 per kilogram unless a higher value is declared on the face of the bill of lading by the consignor.

11. *Exception*

Article 10 does not apply to the transportation for compensation of commodities listed under the Class H classification of operating licences where the shipment is made under an operating licence authorizing such shipment.

12. *Consignor's Risk*

Where it is a term or condition that the goods are carried at the risk of the consignor or owner, the condition covers only such risks as are necessarily incidental to transportation and does not relieve the carrier from liability for any loss, damage, injury or delay that may result from any negligence or omission of the carrier, its agents or employees, and the burden of proving the absence of negligence or omission is on the carrier.

13. *Notice of Claim*

The carrier is not liable for loss, damage, injury or delay to any goods carried under the bill of lading unless notice thereof setting out particulars of the origin, destination and date of shipment of the goods and the estimated amount claimed in respect of such loss, damage, injury or delay is given in writing to the carrier at the point of delivery or at the point of origin within ninety (90) days after the delivery of the goods, or, in the case of failure to make delivery, within ninety (90) days after a reasonable time for delivery has elapsed.

14. *Undelivered Goods*

Where, through no fault of the carrier, the carrier is unable to effect delivery of goods to the person entitled to receive them, the goods may,

- (a) be kept in the warehouse of the carrier, subject to a reasonable charge for storage and to the carrier's responsibility as warehouseman only; or
- (b) at the option of the carrier, after written notice of the carrier's intention to do so has been served on the consignor and consignee of the goods in person or by registered mail, be removed to, and stored in, a public or licensed warehouse at the expense of the owner of the goods and there held at the risk of the owner,

without liability on the part of the carrier, and subject to a lien for all freight and other lawful charges including a reasonable charge for storage.

15. *Articles of Extraordinary Value*

No carrier is bound to carry any documents, specie or any articles of extraordinary value unless by a special agreement to do so and where the nature and stipulated value of the goods is disclosed to him, the duty of obtaining such special agreement is on the carrier.

16. *Freight Charges*

The owner or consignee of the goods shall pay the freight and all other lawful charges accruing on the goods and, if required by the carrier, shall pay them before delivery and, if the goods shipped are not those described in the bill of lading, the freight charges shall be paid upon the goods actually shipped with any additional penalties due.

17. *Dangerous Goods*

Every person, whether as principal or agent, shipping explosives or dangerous goods without previous full written disclosure to the carrier of their nature, shall indemnify the carrier against all loss, damage or injury caused thereby, and the goods may be warehoused at the risk and expense of the owner of the goods.

18. *Alterations*

Any alteration, addition or erasure in a bill of lading shall be signed or initialed by the parties thereto. O. Reg. 943/79, Sched. 2.

Schedule 3

4. *Valuation*

Subject to article 5, the amount of any loss, damage or injury for which the freight forwarder is liable, whether or not the loss, damage or injury results from negligence, shall be computed on the basis of,

- (a) the value of the goods at the place and time of shipment including the freight and other charges if paid; or
- (b) where a value lower than that referred to in paragraph *a* has been represented in writing by the consignor or has been agreed upon, such lower value.

5. *Maximum Liability*

The amount of any loss or damage computed under paragraph *a* or *b* of article 4 shall not exceed \$4.41 per kilogram computed on the total weight of the shipment unless a higher value is declared on the face of the bill of lading by the consignor.

6. *Consignor's Risk*

Where it is a term or condition that the goods are carried at the risk of the consignor or owner, the condition covers only such risks as are necessarily incidental to transportation and does not relieve the freight forwarder from liability for any loss, damage or injury or delay that may result from any negligence or omission of the freight forwarder, its agents or employees, and the burden of proving the absence of negligence or omission is on the freight forwarder.

7. *Notice of Claim*

The freight forwarder is not liable for loss, damage, injury or delay to any goods carried under the

bill of lading unless notice thereof setting out particulars of the origin, destination and date of shipment of the goods and the estimated amount claimed in respect of such loss, damage, injury or delay is given in writing to the freight forwarder at the point of delivery or at the point of origin within ninety (90) days after the delivery of the goods, or, in the case of failure to make delivery, within ninety (90) days after a reasonable time for delivery has elapsed.

THE ASSESSMENT ACT

O. Reg. 19/80.

Equalization of Assessments made Pursuant to Section 86 of The Assessment Act.

Made—January 8th, 1980.

Filed—January 8th, 1980.

REGULATION MADE UNDER THE ASSESSMENT ACT

EQUALIZATION OF ASSESSMENTS MADE PURSUANT TO SECTION 86 OF THE ASSESSMENT ACT

1. The equalization of assessments under the Act in each prescribed class of real property necessary in order to provide, for each municipality specified in the Schedule to this Regulation, assessments of real property that, in accordance with section 86 of the Act, will be equitable one with the other in each prescribed class of real property shall include, as standards to be taken into account in such equalization and the computation of the factors resulting therefrom, the following considerations:

1. The proportion that the municipal and school taxes levied for the year 1979 against the total assessment of real property in each prescribed class of real property is of the total municipal and school taxes levied for the year 1979 in the municipality shall be maintained to the extent that, if that single mill rate that would have been required to produce in the year 1979 the amount of municipal and school taxes levied in that year against the total assessment of the prescribed class of real property were applied to the total assessment for that prescribed class of real property resulting from the application of the factors hereafter in this Regulation prescribed for that class of real property in that municipality, the municipal and school taxes that would have been so levied for the year 1979 from the total assessment for that prescribed class will be substantially the same total amount for that prescribed class of real property as was actually levied in the municipality for the year 1979 against the total assessment for that prescribed class of real property in that municipality.
2. All real property within a prescribed class of real property in the same municipality shall, as nearly as may be, be assessed at the same proportion of the market value of such real property in the year 1975, as that market value is determined by the Assessment Commissioner in whose Assessment Region such real property is located.
3. The total assessment, including assessments made under section 42 or 43 of the Act, of the real property in a municipality to which this Regulation applies shall not be increased or decreased substantially.
4. Equitability of assessment of real property within each prescribed class of real property in the same municipality shall be established without significant alteration of the assessment relationships between prescribed classes of real property in the same municipality, provided that this paragraph does not apply to affect changes in the assessment relationship between prescribed classes of real property that result from an increase in the total assessment of a prescribed class of real property by reason of assessments made under section 42 or 43 of the Act. O. Reg. 19/80, s. 1.

The Environmental Assessment Act, 1975

MOE-19

Exemption Section 30

Having received a request from the Minister of Housing that the undertaking namely:

A program of planning, designing, constructing, operating and maintaining a water supply system for the Regional Municipality of Haldimand-Norfolk consisting of a water production and treatment system, trunk watermains, reservoirs, booster pumping stations and overhead tanks as described in schedule "A" for which an environmental assessment dated July 31, 1978 has been submitted,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- 1. The public will be interfered with by the delay of the water supply required to permit occupancy of the Townsend Community Development Project.
- 2. The Ministry of Housing will be interfered with by the delay in projects within the program which are already well advanced either prior to the Act being proclaimed in force or previously exempted under Ontario Regulation 836/76 as amended.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order to do order that the undertaking is exempt from the application of the Act for the following reasons:

- 1. The public would be interfered with by delay in the carrying out of the construction of planned housing if the environmental assessment dated July 31, 1978 were being corrected to remedy the deficiencies identified in the draft comments prepared for its review and the environmental assessment were being further processed under the Act when the deficiencies may be mitigated by imposing terms and conditions hereby.

This exemption is subject to the following terms and conditions:

- 1. The construction of the undertaking be carried out in accordance with construction and site restoration guidelines as approved by the Environmental Approvals Branch of the Ministry of Environment; the mitigation or the avoidance provisions referred to in conditions 3, 5 and 6 be complied with; and in accordance with statements made in 'Appendix D' of the document entitled, Haldimand Norfolk Regional Water Supply, MOE Project #5-0213-00, M. M. Dillon Ltd., Consulting Engineers and Planners, March 16/79.
- 2. The following parties be involved at all stages of the planning of any contract that could

have environmental implications including the trunk watermain alignment, the sites for overhead tanks, reservoirs, pumping stations and access routes: the Environmental Assessment Section, and the Land Use Co-ordination Section of the Environmental Approvals Branch; the Planning and Co-ordination Section of the Water Resources Branch; the Noise Pollution Control Section of the Pollution Control Branch; the Approvals and Planning Section of the West-Central Region; all of the Ministry of the Environment, and the Historical Planning and Research Branch of the Ministry of Culture and Recreation.

3. That there be a comprehensive botanical survey carried out for the proposed pipeline corridors, water storage areas and access routes by a qualified botanist. The impact of the planned construction on any identified rare or unique species is to be identified and mitigation measures proposed or routing alternatives considered that avoid the identified concerns.
4. That a survey for archaeological, historical and architectural purposes be carried out during the detailed design stage for the sections of the corridor, construction access routes and locations of all water storage areas for which such a survey has not yet been carried out; that the impact of planned construction on previously documented sites and any new sites of archaeological, historical and architectural significance which are identified be assessed; and that either the necessary archaeological salvage and monitoring activities be identified and carried out or the areas of concern be avoided in the routing.
5. That the archaeological, historical, and architectural mitigation or avoidance proposals required by condition No. 4 be reviewed and approved by the Ministry of Culture and Recreation, Historical Planning and Research Branch prior to construction.
6. That the plans, specifications and drawings for work required by the conditions of this exemption be reviewed and approved by the Environmental Assessment Section, Environmental Approvals Branch, of the Ministry of the Environment prior to construction.
7. That an on-site inspector be appointed by the proponent and that his sole duty is to be responsible for overseeing all construction and ensuring that all considerations concerning environmental protection are carried out as indicated in the environmental reports, contract specifications, drawings and any mitigation or avoidance provisions provided for hereunder.
8. That a design be prepared for a monitoring report and approved by the Environmental Assessment Section of the Environmental Approvals Branch, of the Ministry of the

Environment before construction commences. This design for the monitoring report is to be produced for review and approval of the Environmental Assessment Section. The report's purpose is to document the successes and failures of the pipeline's construction and restoration in accordance with the environmental protection requirements placed on the project. Such a report is to be submitted at least annually during the construction to the Environmental Approvals Branch commencing not later than 1 year following the start of construction with a final report submitted not later than 1 year after the completion of construction.

9. The final route alignment and locations of associated facilities may be altered in order to comply with the requirements specified pursuant to conditions 3, 4, 5 and 6.
10. This exemption order does not apply to comply with the requirements specified pursuant to conditions 3, 4, 5
10. This exemption order does not apply to the construction of any work for which tenders are awarded after December 31st, 1980 unless tenders for at least 25% of the estimated dollar value for which tenders are proposed to be awarded have been awarded by such date.
11. This exemption does not apply with respect to any construction of new works for the construction of which tenders have not been awarded by December 31, 1982.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 29th day of November, 1979.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from Ontario Hydro that an undertaking, namely:

The activity of Ontario Hydro granting leases, licences or easements to others for secondary uses on properties along transmission line rights-of-way other than properties for which secondary uses have been addressed as part of an individual environmental assessment,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. Individuals wishing to obtain leases, licenses or easements on Ontario Hydro lands will be interfered with by the delay;
2. Ontario Hydro will be interfered with and damaged by the delay and expense required to prepare individual environmental assessments which could render the granting of

leases, licenses and easements for secondary uses uneconomical.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is temporarily exempt from the application of the Act for the following reasons:

1. The immediate application of the Act to individual leases, licenses or easements would not allow Ontario Hydro sufficient time to implement environmental assessment procedures for the undertaking as well as the other undertakings of Ontario Hydro which are subject to the Act; and
2. Ontario Hydro consults with the Ministry of the Environment, in cases where it appears that the proposed secondary use would result in adverse social or ecological changes.

This exemption is subject to the following terms and conditions:

1. Ontario Hydro shall notify the Director of the Environmental Approvals Branch, Ministry of the Environment, of Ontario Hydro plans to grant leases, licenses or easements on properties along transmission line rights-of-way for secondary uses, so that the Ministry of the Environment may become more familiar with the nature of this undertaking.
2. Ontario Hydro shall submit a program environmental assessment covering this undertaking before May 1, 1980.
3. This exemption shall terminate on the earlier of the date on which approval to proceed with the undertaking is received under the Act or May 1, 1981.
4. Prior to the termination of the exemption order any project specific environmental assessment involving right-of-way acquisition will consider secondary uses as part of the assessment.

Dated at Toronto, this 31st day of August, 1979.

Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

CITY OF TORONTO NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of the Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, for Special Legislation to provide:

1. That the City may require the payment of fees for information relating to any land, building or structure and further may require the payment of a fee as prescribed for the inspection of any premises for compliance with *The Building Code Act, 1974* and regulations thereunder, that is required in respect of any licence under *The Liquor Licence Act, 1975* and regulations thereunder.
2. That the persons entitled to notice of the intention of the City to pass a by-law instituting permit parking on any city street be those shown on the last assessment roll returned to the Clerk or in such other record or document as may be determined appropriate by the City Clerk.
3. That the City may designate any area within the City to which a by-law prescribing standards for the repair and maintenance of non-residential property applies, as an area of demolition control and thereafter no person shall demolish the whole or any part of any non-residential property, as defined, without being the holder of a demolition permit issued by the council. The proposed legislation would give the council powers in respect of the demolition of non-residential buildings similar to those which the council now has in respect of the demolition of residential buildings under section 37a of *The Planning Act*.
4. That orders issued under the City's standard of housing legislation will be given to all occupants over the age of 21 known to the inspector by pre-paid first-class mail instead of by personal or substitute service as is now required.

5. For passing by-laws authorizing front-yard parking, as defined, and in connection therewith:
 - (a) providing for the issuing of permits and for establishing criteria and procedures to be followed in connection therewith;
 - (b) prescribing requirements for the use of private property for front yard parking and for prescribing a procedure whereby council or a standing committee thereof may grant variances from such requirements;
 - (c) defining the conditions which may be imposed on the issuing of permits and limiting the number of spaces to be used for front yard parking on any private property and for providing for the issuing of identifying markers and the manner by which such markers are to be affixed and for requiring the payment of fees.

The proposed legislation will provide that section 35 of *The Planning Act* shall not apply to such by-laws.

6. That the City may by by-law require the payment of fees for the issuance of water rate or rent and sewage service rate statements of account, and may prescribe the amounts of the fees.
7. That the City may refund in whole or in part, in accordance with the formula set out in the proposed legislation, the taxes collected by the special charge levied pursuant to section 361 of *The Municipal Act* that are unspent at the refund date as determined by the City Treasurer, to the persons in the Upper Yonge Village Business Improvement Area who paid the levy.
8. That the City may by by-law designate any area covered by an official plan as an energy conservation area and thereafter no person shall undertake any development, as defined, unless council or the Ontario Municipal Board has approved an energy use statement. The proposed legislation also provides that the City may define any class or classes of development which may be undertaken without the approval of an energy use statement and may with certain exceptions delegate to a committee of council or an appointed official any of the council's power or authority under the proposed section. It may be required, as a condition of approval of the energy use statement, that the owner of the land provide and maintain such facilities, matters and construction and design details as shall conserve the use of energy, and enter into one or more agreements with the City dealing therewith, which agreements may be registered against the land and enforced against the owner and subsequent owners. The proposed legislation will provide for certain appeals to the Ontario Municipal Board.

The Ontario Highway
Transport Board Act

POLICY STATEMENT

January 14, 1980.

ITEM:

Hearing Procedures for Applications for Class 'R'
Operating Licences.

OBJECTIVE:

To establish hearing procedures which improve
the type and quality of evidence and offer the
fairest possible opportunity to applicants, witnes-
ses and respondents to present their views regard-
ing Class 'R' markets and operations.

BACKGROUND:

This statement stems from a report of the Board
dated July 20, 1979 which followed a series of
special hearings on many aspects of Class 'R' policy
and procedure.

Carriers find it virtually impossible to oppose Class
'R' applications during their busy season, even
though their evidence may be very relevant to each
and every application. Board figures for 1978 indi-
cate that only 83 of 957 Class 'R' hearings (9%)
were opposed. On the other hand, shippers find it
burdensome to appear time after time supporting
individual applicants. In addition, needs vary
from year to year with shifts in construction pro-
grams.

The Board believes that supply and demand in the
dump vehicle industry should be researched,
debated and quantified as much as possible by all
those with a direct interest in the industry. Given
the cooperation of shippers, applicants, respon-
dents, and interested groups or associations, it is
felt that the hearing process outlined herein will
overcome the problems noted above, allow
improved debate of these issues thereby
rationalizing the application of Class 'R' regulatory
law and facilitating the making of decisions which
are as objective and informed as possible.

STATEMENT:

1. *Application for Permanent Authority*
In future the Board intends to deal with Class 'R'
applications for permanent authority in the fol-
lowing manner:

The Fire Marshals Act

The Fire Services Long Service Medal

In accordance with Section 10 of Regulation 353
made under *The Fire Marshals Act*, the following were
awarded the Fire Services Long Service Medal in rec-
ognition of thirty years service as a member of the
Public Fire Services.

MISNER, Archie, J.	City of Nanticoke
RANDLE, Reginald Alfred	Town of Meaford
SHELDON, Frederic Wallace	Township of Larder Lake

1. Special hearings will be held at least once each year:

- (a) in southern Ontario in February: in Toronto, Kitchener, London, St. Catharines, Windsor, Peterborough, Kingston and Ottawa; and
- (b) in Northern Ontario in March: in Sault Ste. Marie, Sudbury, Timmins, Kapuskasing, Thunder Bay, Dryden and Fort Frances; and
- (c) other centres where there is significant market activity and interest in new licences and which may be suggested by the public from year to year.

2. (a) All applications for new or expanded Class 'R' authority received by the Board after October 1st each year and prior to February 1st, will be scheduled for such a hearing.

- (b) applications received from February 1st through September 30th will continue to be set down for individual hearings as is done at the present time.

3. Applications will continue to be published and objections received in the normal way in accordance with the provisions of Regulations 632 under *The Ontario Highway Transport Board Act*, Ontario.

4. At the commencement of each of the special hearings, at each location noted above, the Board will encourage and hear:

- (a) *General evidence* with respect to supply and demand in the area either for or against further licensing in the area. The Board encourages associations, shipper groups or government agencies to present their views and any supporting factual information that can be generated.
- (b) *Statistical evidence* from any government or private body that would indicate a change in Class 'R' trucking requirements. Prior to these hearings the MTC will have provided to the Board all available forecasts pertinent to Class 'R' trucking requirement and may provide a representative at the hearing to review them.
- (c) *Specific evidence in support of each individual applicant*. Shippers if they choose may give general evidence with respect to need in the area and may support a number of applicants with one appearance. They would be required to identify the applicant(s) they support and state why the service is needed. Witnesses giving evidence in this form would be subject to cross-examination by any respondent affected.
- (d) Specific evidence from respondents as it applies to the application opposed.

Each respondent would be required to testify once.

5. Following these annual hearings the Board will, on the basis of the evidence presented, issue a concise report outlining its perception of trends in demand for the upcoming construction season. This report will be made public and available to any person interested in Class 'R' authorities.

6. Each application will continue to be determined on its own merits considering public necessity and convenience as established by the evidence.

11. Applications for Non-permanent Operating Authority (Temporary or Interim).

Notwithstanding the potential benefits of this process, shortages in specific areas of the Province will occur that cannot be predicted on an annual basis and which will require issuance of temporary or interim authority to provide a timely response. If shortages appear to be recurring, the Board will consider establishing a special hearing, similar in nature to the annual hearings outlined above, so that several applications for temporary or interim authority can be heard at once and the true nature and extent of the shortage determined. All other factors being equal, preference would be given to applicants who have filed applications for permanent authority.

B. B. ALEXANDER,
Chairman.

Order-in-Council

O.C. 114/80

Copy of an Order-in-Council approved by Her Honour the Lieutenant Governor, dated the 23rd day of January, A.D. 1980.

The Committee of Council have had under consideration the report of the Honourable the Minister of Transportation and Communications, wherein he states that,

WHEREAS in and by Chapter 56 of the Statutes of Ontario, 1979, entitled "*The Public Commercial Vehicles Amendment Act, 1979*", it is enacted that the Lieutenant Governor in Council may by Order from time to time issue policy statements setting out matters to be considered by the Ontario Highway Transport Board when determining questions of public necessity

and convenience and the Ontario Highway Transport Board shall take such matters into consideration together with such other matters as the Ontario Highway Transport Board considers appropriate where the hearing or review is commenced after the policy statement is gazetted;

The Honourable the Minister of Transportation and Communications therefore recommends that, in addition to the considerations set out in Order-in-Council numbered OC-2105/79, the following matters be taken into consideration by the Ontario Highway Transport Board when determining questions of public necessity and convenience in relation to applications for Class W public commercial vehicle operating licences for the transportation of logs, timber, rough or dressed lumber, laminated lumber, laminated wood blocks, wooden ties and poles, plywood, particle board, waferboard, fibre-wood, veneer, bark, woodchips, shavings, sawdust and wood flour.

1. The needs of shippers supporting the application and the ability of the applicant to provide a safe and efficient transportation service shall be given primary consideration.
2. Evidence of a licensed carrier opposing an application shall be given weight relative to the extent to which such carrier currently transports Class W commodities from the region in respect of which the application is made and the extent to which his transportation service to the public would be adversely affected by the granting of the licence to the applicant.
3. Where the applicant is a licensed carrier, evidence that a Class W licence would result in better utilization of the applicant's equipment moving from the regions for which the application is made shall be considered.
4. Evidence of public necessity and convenience in respect of one or more commodities shall be considered as support for the granting of the total list of commodities for which a Class W licence may be issued.

The Committee of Council concur in the recommendation of the Honourable the Minister of Transportation and Communications and advise that the same be acted on.

Certified,

R. A. FARRELL,
Deputy Clerk, Executive Council.

The Environmental Assessment Act, 1975

MTC-26

Exemption Section 30

Having received a request from the Minister of Transportation and Communications that an undertaking namely:

The design and construction of two sections of the E.C. Row Expressway, an undertaking already having been exempted from the requirements of the Act pursuant to Section 30, but for which the following will not be substantially completed by January 1, 1980:

W.P. 258-66-01, from 0.1 mile west of Highway 3 easterly to 0.3 miles west of Highway 3B; and

W.P. 260-66-01, from Highway 18 easterly to 0.1 mile west of Highway 3,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property will occur:

1. The Crown will be damaged by an increase in the costs of, and interfered with by the delay in the completion of the project for which a planning study was completed prior to the Act being proclaimed in force; and
2. The public will be interfered with by delay in the carrying out a highway project to which the Ministry of Transportation and Communications has made a public commitment; and
3. Private development interests, which relied on timely completion of this undertaking as a significant factor in their decisions to locate in Windsor, would be interfered with and damaged by the delay in the carrying out of the highway project which would be caused by the application of the Act; and

Having weighed such injury, damage and interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment, which would result from the undertaking being subject to the application of the Act;

Having been advised:

1. That this undertaking will provide an important link between the completed and/or committed sections of the expressway in the east and Highway 3 in the west, and will complete the E.C. Row Expressway to Highway 18; and
2. That completion of this undertaking will complement that adjacent (exempted) sections of the Expressway in fulfilling the commitments of the City of Windsor and the Province of Ontario made to the Ford Motor Company; and

3. That construction of this undertaking will serve the Maple Leaf Mills and U.C.O. Grain Handling facilities recently completed in the City's west side; and
4. That delays in completion of this undertaking could be detrimental to industrial development, since the locational decisions of these industries were based upon timely completion of this undertaking.

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below, that the undertaking is exempt from the application of the Act for the following reasons:

1. I have been advised by the local M.P.P.s and the Mayor of Windsor that the local public and businesses are more concerned with the effects of delaying the undertaking to permit review of an environmental assessment than the possible effects of allowing the undertaking to proceed without an environmental assessment and I concur with their conclusions;
2. The planning for the entire E.C. Row Expressway corridor was completed, and the design construction and operation of several sections of it were well advanced at the time the Act came into force; and
3. The timely completion of the Expressway to serve newly-located industries in Windsor is recognized as being a desirable goal and is in the best interests of the Province, the local residents, and the industries, their employees and suppliers.

This exemption is subject to the following terms and conditions:

1. The Ministry of Transportation and Communications shall prepare and submit to this Ministry, an environmental status statement(s) documenting the design and construction phase of these two sections, for information and monitoring purposes only.

This order comes into force and has effect on and after the day upon which it is approved by the Lieutenant Governor in Council.

HARRY PARROTT, D.D.S.,
Minister of the Environment.

O.C. No. 3288/79

Dated at Toronto, this 12th day of December, 1979.

MNR-11/2

Exemption Section 30

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The management by the Ministry of Natural Resources of Crown land presently included within forest management units, which is currently exempted until December 31, 1979,

be exempted from the application of the Act for an additional period of one year pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

The Crown and the public will be interfered with by the delay in planning and implementing of forest management plans which are scheduled to proceed within the period of the exemption.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The Ministry of Natural Resources requires a further period of time to any application of environmental assessment procedures to the undertaking in order to complete revisions to its overall forest policy direction. The revisions include:
 - a review of all aspects of forest regeneration and development of definitive policy guidelines on the size of clear-cuts,
 - the completion of the study on the privatization of forest management in Ontario;
2. The Ministry requires additional time to establish refined benefit-cost figures resulting from the application of possible guidelines derived from an environmental assessment of the undertaking;
3. The undertaking is an ongoing activity of the Ministry of Natural Resources and is an integral part of the economy of the Province. The application of the Act before December 31, 1980 in the absence of an approval under the Act would result in the halting of forest management in Ontario. Therefore, the interference which would be caused would be undue;

This exemption is subject to the following terms and conditions:

1. This exemption expires on December 31, 1980;
2. A copy of any plan with respect to part of this undertaking shall, before the implementation of the plan commences or within 30 days of this order being issued, be made available to the public at a local office of the Ministry of Natural Resources and a copy shall also be sent to the Environmental Approvals Branch of the Ministry of the Environment to be kept with the records of environmental assessments and made available to the public in the same way as such records;
3. Where the carrying out of the undertaking requires that some activity, for which an environmental assessment has been done and an approval to proceed received, be conducted, that activity shall be carried out in

accordance with the environmental assessment and approval to proceed.

This order comes into force and has effect on and after the date upon which it is approved by the Lieutenant Governor in Council.

Minister of the Environment.

MTC-27

Exemption Section 30

Having received a request from the Minister of Transportation and Communications that an undertaking namely:

The activity of carrying out planning, design provision and construction under that portion of the Provincial Roads construction program associated with Highway 8—from Freeport to Highway 401.

be exempted from application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property will occur:

1. The public will be interfered with by resulting delays in construction which will lower already critical levels of service in this section of the Highway 8 corridor, possibly leading to greater driver frustration and higher accident rates; and
2. The Crown will be damaged by an increase in the costs of, and interfered with by the delay in completion of the project for which planning studies, (including the Highway 8 Review), were completed prior to the Act being proclaimed in force; and
3. The public living along the more congested portions of this existing King's Highway will be further interfered with and damaged by extended exposure to such inconveniences as truck noise, dust, and head-light glare, as well as the increased safety hazards pointed out in Item 1 above; and
4. Private development interests who have, in some cases, been requested to modify their plans to be compatible with highway design or have been restricted from proceeding with their proposed plans, will be interfered with and damaged by a delay and possible modification of the location of this section of Highway 8, leading to higher costs, loss of development potential, and lower land values.

Having weighed such injury, damage and interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment, which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below, that the undertaking is exempt from the application of the Act for the following reasons:

1. The planning for the undertaking was completed before the Act came into force and it has reached a sufficiently advanced stage that the interference with the Provincial road construction program of the Ministry of Transportation and Communications with respect to the undertaking in question, which would be caused by the application of the Act, would be undue; and
2. Previous studies, including the Highway 8 Review (1974), and the Regional Municipality of Waterloo "Draft" Regional Transportation Plan, have adequately addressed the questions of need and justification and have sufficiently investigated and documented issues dealing with social and natural environmental effects; and
3. An active public participation program formed an essential part of the planning for the undertaking; and

4. The protection, conservation and wise management of the environment will be sufficiently provided for by the detailed environmental design and construction techniques already followed by the Ministry of Transportation and Communications as part of its policy.

This exemption is subject to the following terms and conditions:

1. The Ministry of Transportation and Communications shall prepare an Environmental Status Statement to cover the planning, design and construction of the undertaking, and submit a copy to the Ministry of the Environment for information and monitoring purposes and shall implement the undertaking in accordance with this Statement.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 23rd day of January, 1980.

CITY OF TORONTO NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of the Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, for Special Legislation to provide:

1. That the City may require the payment of fees for information relating to any land, building or structure and further may require the payment of a fee as prescribed for the inspection of any premises for compliance with *The Building Code Act, 1974* and regulations thereunder, that is required in respect of any licence under *The Liquor Licence Act, 1975* and regulations thereunder.
2. That the persons entitled to notice of the intention of the City to pass a by-law instituting permit parking on any city street be those shown on the last assessment roll returned to the Clerk or in such other record or document as may be determined appropriate by the City Clerk.
3. That the City may designate any area within the City to which a by-law prescribing standards for the repair and maintenance of non-residential property applies, as an area of demolition control and thereafter no person shall demolish the whole or any part of any non-residential property, as defined, without being the holder of a demolition permit issued by the council. The proposed legislation would give the council powers in respect of the demolition of non-residential buildings similar to those which the council now has in respect of the demolition of residential buildings under section 37a of *The Planning Act*.
4. That orders issued under the City's standard of housing legislation will be given to all occupants over the age of 21 known to the inspector by pre-paid first-class mail instead of by personal or substitute service as is now required.

5. For passing by-laws authorizing front-yard parking, as defined, and in connection therewith:

- (a) providing for the issuing of permits and for establishing criteria and procedures to be followed in connection therewith;
- (b) prescribing requirements for the use of private property for front yard parking and for prescribing a procedure whereby council or a standing committee thereof may grant variances from such requirements;
- (c) defining the conditions which may be imposed on the issuing of permits and limiting the number of spaces to be used for front yard parking on any private property and for providing for the issuing of identifying markers and the manner by which such markers are to be affixed and for requiring the payment of fees.

The proposed legislation will provide that section 35 of *The Planning Act* shall not apply to such by-laws.

6. That the City may by by-law require the payment of fees for the issuance of water rate or rent and sewage service rate statements of account, and may prescribe the amounts of the fees.
7. That the City may refund in whole or in part, in accordance with the formula set out in the proposed legislation, the taxes collected by the special charge levied pursuant to section 361 of *The Municipal Act* that are unspent at the refund date as determined by the City Treasurer, to the persons in the Upper Yonge Village Business Improvement Area who paid the levy.
8. That the City may by by-law designate any area covered by an official plan as an energy conservation area and thereafter no person shall undertake any development, as defined, unless council or the Ontario Municipal Board has approved an energy use statement. The proposed legislation also provides that the City may define any class or classes of development which may be undertaken without the approval of an energy use statement and may with certain exceptions delegate to a committee of council or an appointed official any of the council's power or authority under the proposed section. It may be required, as a condition of approval of the energy use statement, that the owner of the land provide and maintain such facilities, matters and construction and design details as shall conserve the use of energy, and enter into one or more agreements with the City dealing therewith, which agreements may be registered against the land and enforced against the owner and subsequent owners. The proposed legislation will provide for certain appeals to the Ontario Municipal Board.
